

**World Congress of Psychiatry**  
**Lisbon, Portugal**  
**21 – 24 August 2019**

**Proposed Course Outline**

**Title:** Implementing the new ICD-11 diagnostic guidelines for mental disorders in clinical practice

**Chair:** Prof. Geoffrey M. Reed, World Health Organization, Geneva, Switzerland and Global Mental Health Programs, Columbia University, New York, New York USA.

**Co-Chair:** Prof. Mario Maj, University of Campania “L. Vanvitelli”, Naples, Italy.

**Brief description:**

This workshop will provide practical training on the use of the *Clinical Descriptions and Diagnostic Guidelines for ICD-11 Mental, Behavioural and Neurodevelopmental Disorders*. This is the diagnostic manual designed for use by mental health professionals in clinical settings, developed by the WHO Department of Mental Health and Substance Abuse. The training workshop will be geared toward psychiatrists in clinical practice. Material on the main features of the new ICD-11 guidelines and changes from ICD-10 will be presented by leading global experts who have been integrally involved in the development of the ICD-11. The workshop will emphasize active participation through application of the new guidelines to clinical vignettes based on real cases and discussion of diagnostic dilemmas. The workshop will cover some of the areas of most central concern to psychiatric practice and that account for the greatest proportion of mental health service utilization:

- **Schizophrenia and Other Primary Psychotic Disorders** will be covered by Professor Wolfgang Gaebel;
- **Mood Disorders** (including Bipolar Disorders and Depressive Disorders) will be covered by Professor Mario Maj; and
- **Obsessive-Compulsive and Related Disorders** will be covered by Professor Dan Stein.

Application discussions will be facilitated by Professor Geoffrey Reed and Professor Kathleen Pike.

**Faculty:**

**Prof. Geoffrey M. Reed**

**Prof. Mario Maj**

**Prof. Wolfgang Gaebel**, Heinrich-Heine University, Düsseldorf, Germany.

**Prof. Kathleen M. Pike**, Global Mental Health Programs, Columbia University, New York, NY, USA

**Prof. Dan Stein**, University of Cape Town, Cape Town, South Africa.

**Learning Objectives:**

*As a result of participating in the course, participants will be able to:*

1. Describe the major changes in the structure and content of the ICD-11 groupings of Schizophrenia and Other Primary Psychotic Disorders, Mood Disorders, and Obsessive-Compulsive and Related Disorders as compared to ICD-10.
2. Demonstrate preparation to apply the new ICD-11 classification in these areas in daily practice.
3. More effectively support the implementation of ICD-11 in mental health service settings.
